

## *Is your Building really secure?*

- 
- Do too many employees or others have access to areas of your business?*
- 
- 
- Have lost keys or too many masterkeys compromised overall security?*
- 
- Are employees making copies of keys to gain access to secure areas?*
- 
- Restricted or specialty key systems are available, limiting or reducing the ability of unauthorized key duplication.*
- 
- Interchangeable key cylinder type locks are available to quickly change out keys without removing the lock from a door. Allowing business owners or managers to quickly limit access to specific areas.*
-
